Endg Apt Pt (blow kiss); Tog Tch (CP); Dip Bk & Twist,

* Rev Turns - as defined in Roundalab Wz as Viennese Turns (only different cue term - not different steps)

*Prog Boxes should be danced with some sway and also some sd&fwd on the side step

- if that is for your group covered by the cue-term "forward Waltz" feel free to exchange the cue term

* Close Change may also be cued as Prog Box half if closed change is not known
